

# SNP confusion over Plains Station

# SNP Spin v Facts

SPIN "...Plains missed out due to the then Labour Administration"

**FACT** - Plains station was refused by the SNP Transport Minister Stewart Stevenson on 22/10/07.

SPIN "Alex Neil, our MSP has secured funding that is available from Central Government to construct a station in Plains"

**FACT** - Alex Neil MSP stated "... "No minister is allowed to take decisions relating to his ... constituency. Keith Brown will make the decision .."

SPIN "If elected I will ensure a train station is delivered."

**FACT** - The Scottish Government will decide, not an individual MSP.

# Tommy Morgan

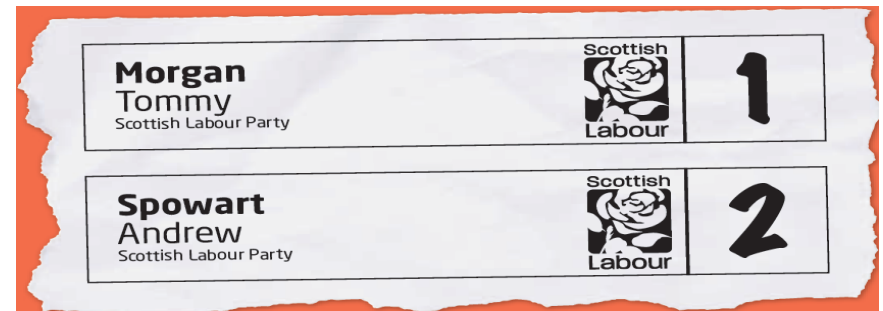

I was dismayed and disappointed when I read the election flyer that was distributed throughout the village by the SNP. This leaflet was misleading, inaccurate and deceitful

During last years election, Alex Neil MSP promised to deliver a new Plains station, yet one year on we are still waiting.

I can assure you that myself and all my Labour colleagues will continue to keep pressure on the SNP Government to end this disgraceful situation and build a train station in Plains.

On May 3<sup>rd</sup> I ask that you continue to support the Scottish Labour Party and **vote Morgan 1 & vote Spowart 2** on your Ballot Paper.

Many thanks, Tommy

**Vote Scottish Labour**
