Q1: Do you support the principle that non-residential social care services should be available free at the point of delivery to those who have been assessed by a relevant professional as requiring them (as is the case within health care)?

Yes

Please explain your answer

Elderly people have worked hard all their life and their houses should not be used as collateral for care. Care is a deserved act of service.

Q2. Do you agree that legislation is a necessary and appropriate means of addressing the issues identified?

Yes

Please explain the reasons for your response

Makes things clear

Q3. The current system has resulted in varying charges in different areas for the same level and quality of service. Do you agree that there should be consistency across Scotland?

Q3. The current system has resulted in varying charges in different areas for the same level and quality of service. Do you agree that there should be consistency across Scotland?

Yes

What do you think the advantages and disadvantages would be?

Equality of provision should be the target as - to use a weel kent Scots phrase - 'we're aw Jock Tamsons bairns'.

Q4. Should all social care related services be free at the point of delivery?

Yes

If you answered Yes, please explain your reasons. If you answered No, please explain which services should be excluded, and why. (Please refer to the services set out on page 7 of the consultation document).

Again, elderly have already contributed to Society and as our act of gratitude ,we should provide for them as a duty.

Q5. What are the likely financial implications (if any) of the proposed Bill to you or your organisation? What (if any) other significant financial implications are likely to arise?

Genuinely do not know - I'm writing out of principle.

Q6. What do you think the implications of the proposed Bill are for equality? If it is likely to have a substantial negative implication, how might this be minimised or avoided?

Undecided

Please explain your answer. If you answered Negative, please suggest any ways this impact could be minimised or avoided.

I would hope that a service commitment prevails.

Q7. Are there any other comments you would wish to make that are relevant to this proposal?

Do support people before structure.
