## Page 4: Your comments on the proposal

Q1: Do you support the principle that non-residential social care services should be available free at the point of delivery to those who have been assessed by a relevant professional as requiring them (as is the case within health care)?

Yes

Q2. Do you agree that legislation is a necessary and appropriate means of addressing the issues identified?

Yes

Q3. The current system has resulted in varying charges in different areas for the same level and quality of service. Do you agree that there should be consistency across Scotland?

Yes

Q4. Should all social care related services be free at the point of delivery?

Q4. Should all social care related services be free at the point of delivery?

Yes

**If you answered Yes, please explain your reasons. If you answered No, please explain which services should be excluded, and why. (Please refer to the services set out on page 7 of the consultation document).**

It is no fault of the people that require these services that they need them.

Q5. What are the likely financial implications (if any) of the proposed Bill to you or your organisation? What (if any) other significant financial implications are likely to arise?

My son no longer receives the support he previously received as he is not able to pay for it.

Q6. What do you think the implications of the proposed Bill are for equality? If it is likely to have a substantial negative implication, how might this be minimised or avoided?

Negative

**Please explain your answer. If you answered Negative, please suggest any ways this impact could be minimised or avoided.**

Many people who need care and support will not be able to pay and are therefore being discriminated against due to their financial situation. Society will be failing to look after its vulnerable citizens.

Q7. Are there any other comments you would wish to make that are relevant to this proposal?

Good luck.
