

Proposed Bill to abolish charges for non-residential social care

Page 2: About you

Please provide your name and other contact details. Please provide at least one means of contacting you (address, e-mail or telephone) - e-mail is our preferred option. (NB: you will be given the option shortly to specify whether it is your name or your organisation's name that is to be used, and you may also request anonymity or confidentiality for your response.)

Your name (mandatory)

Ryan Cuff

Name of your organisation (if applicable - otherwise leave blank)

-

Your Job Title (if applicable - otherwise leave blank)

[REDACTED]

Contact details (please provide at least one of: email, telephone number, postal address) (mandatory)

[REDACTED]

Please indicate below whether you are content for your response to be attributed to you by name (either your name or that of your organisation)

I am content for my response to be attributed to me (as an individual)

Page 4: Your comments on the proposal

Q1: Do you support the principle that non-residential social care services should be available free at the point of delivery to those who have been assessed by a relevant professional as requiring them (as is the case within health care)?

Yes

Please explain your answer

Well yes I do think no matter what it is if you have been assessed in any way by a professional then I don't understand why people should have to pay it's not right like for example Elderly people/People with a disability should not have to pay for an sort of residential care what-so-ever so yes I do support the principle I think

Q2. Do you agree that legislation is a necessary and appropriate means of addressing the issues identified?

Please explain the reasons for your response

Yes I do agree because what's the point of hiding the issue from someone I don't get what's so important about keeping it to yourself if it has something to do with somebody else

Q3. The current system has resulted in varying charges in different areas for the same level and quality of service. Do you agree that there should be consistency across Scotland?

Q3. The current system has resulted in varying charges in different areas for the same level and quality of service. Do you agree that there should be consistency across Scotland?

Undecided

Q4. Should all social care related services be free at the point of delivery?

Yes

If you answered Yes, please explain your reasons. If you answered No, please explain which services should be excluded, and why. (Please refer to the services set out on page 7 of the consultation document).

Well social care I think in my opinion should be free any kind of support though social work should be a free point of delivery I don't agree about some people having to pay to get social work's help that should not be the case it should be free of charge wherever you are

Q5. What are the likely financial implications (if any) of the proposed Bill to you or your organisation? What (if any) other significant financial implications are likely to arise?

No Response

Q6. What do you think the implications of the proposed Bill are for equality? If it is likely to have a substantial negative implication, how might this be minimised or avoided?

Positive

Q7. Are there any other comments you would wish to make that are relevant to this proposal?

Yes I think that the scottish parliament don't work hard enough for any of the people because they have to pay for services they have to pay for dental work they even have to pay for NHS hospital help and that's no right what if somebody was to need a tooth implication then they would have to pay for that to happen otherwise they don't get the treatment that they need. People sometimes have to pay psychologist's for they treatment that they give I don't think that's right you have a very high financial problem and that should be sorted
