## Page 4: Your comments on the proposal

Q1: Do you support the principle that non-residential social care services should be available free at the point of delivery to those who have been assessed by a relevant professional as requiring them (as is the case within health care)?

No

**Please explain your answer**

I feel they should be available free for those on Pension Credit or other benefits, or at least means tested.

Q2. Do you agree that legislation is a necessary and appropriate means of addressing the issues identified?

Yes

**Please explain the reasons for your response**

Only by legislation will there be uniform provision throughout Scotland.

Q3. The current system has resulted in varying charges in different areas for the same level and quality of service. Do you agree that there should be consistency across Scotland?

Yes

**What do you think the advantages and disadvantages would be?**

Some local authorities might find it difficult to raise the finance to provide the expected level of cover. The advantage is that social care will not be a Postcode Lottery'.

Q4. Should all social care related services be free at the point of delivery?

No

**If you answered Yes, please explain your reasons. If you answered No, please explain which services should be excluded, and why. (Please refer to the services set out on page 7 of the consultation document).**

Sorry, couldn't access document while doing survey.

Q5. What are the likely financial implications (if any) of the proposed Bill to you or your organisation? What (if any) other significant financial implications are likely to arise?

Would be necessary for Council Tax to rise.

Q6. What do you think the implications of the proposed Bill are for equality? If it is likely to have a substantial negative implication, how might this be minimised or avoided?

No significant implications

Q7. Are there any other comments you would wish to make that are relevant to this proposal?

*No Response*
