

Proposed Bill to abolish charges for non-residential social care

Page 2: About you

Please provide your name and other contact details. Please provide at least one means of contacting you (address, e-mail or telephone) - e-mail is our preferred option. (NB: you will be given the option shortly to specify whether it is your name or your organisation's name that is to be used, and you may also request anonymity or confidentiality for your response.)

Your name (mandatory)

rita mcjury

Name of your organisation (if applicable - otherwise leave blank)

██████████

Your Job Title (if applicable - otherwise leave blank)

████

Contact details (please provide at least one of: email, telephone number, postal address) (mandatory)

██

Please indicate below whether you are content for your response to be attributed to you by name (either your name or that of your organisation)

I am content for my response to be attributed to me (as an individual)

Page 4: Your comments on the proposal

Q1: Do you support the principle that non-residential social care services should be available free at the point of delivery to those who have been assessed by a relevant professional as requiring them (as is the case within health care)?

Yes

Please explain your answer

I think this is against human right people with disabilities and older adults should not be made to pay this so called contribution /tax

Q2. Do you agree that legislation is a necessary and appropriate means of addressing the issues identified?

Undecided

Please explain the reasons for your response

Legislation is in place for types of thing 's but it doesn't get up help as it's legislation that says we have rights and should be treated fairly but will this be upheld I do hope so

Q3. The current system has resulted in varying charges in different areas for the same level and quality of service. Do you agree that there should be consistency across Scotland?

Yes

What do you think the advantages and disadvantages would be?

As a p/a I no that care charges vary from area to area and some of people I have cared had same care had to pay same contribution /tax when one needed more care than the other baffleing

Q4. Should all social care related services be free at the point of delivery?

Yes

If you answered Yes, please explain your reasons. If you answered No, please explain which services should be excluded, and why. (Please refer to the services set out on page 7 of the consultation document).

Yes there's money for hospital ,schools people with disabilities and older adults should be treated the same way with the same budget

Q5. What are the likely financial implications (if any) of the proposed Bill to you or your organisation? What (if any) other significant financial implications are likely to arise?

Will they raise some other tax

Q6. What do you think the implications of the proposed Bill are for equality? If it is likely to have a substantial negative implication, how might this be minimised or avoided?

Undecided

Q7. Are there any other comments you would wish to make that are relevant to this proposal?

I've worked in the social care for 6 years now I'm trained in all aspects of care and I have seen the subtainal impact on people life's with hours been cut from care packages some buy half this just reduces people's rights and choices and forces people in to isolation which leads to depression. Care charges are a disgrace taking money from vulnerable people as if it is there fault or because there older it's as if this government is pulling us into the dark ages treating people like second class citizens I say social care should be free just like health care I say to the government weres your empathy
