Q1: Do you support the principle that non-residential social care services should be available free at the point of delivery to those who have been assessed by a relevant professional as requiring them (as is the case within health care)?

Yes

Please explain your answer

I have been disabled for 38 years, I have found being disabled expensive, personal care is a very basic need but very important task and underpaid. I am inclined to urine infection I choose to take alternative medicine cost £83 pm instead of NHS antibiotics and diarrhoea

If legislation its law and has to be adhered to
