

Proposed Bill to abolish charges for non-residential social care

Page 2: About you

Please provide your name and other contact details. Please provide at least one means of contacting you (address, e-mail or telephone) - e-mail is our preferred option. (NB: you will be given the option shortly to specify whether it is your name or your organisation's name that is to be used, and you may also request anonymity or confidentiality for your response.)

Your name (mandatory)	Alexander Wilkinson
Name of your organisation (if applicable - otherwise leave blank)	-
Your Job Title (if applicable - otherwise leave blank)	-
Contact details (please provide at least one of: email, telephone number, postal address) (mandatory)	

Please indicate below whether you are content for your response to be attributed to you by name (either your name or that of your organisation)

I am content for my response to be attributed to me (as an individual)

Page 4: Your comments on the proposal

Q1: Do you support the principle that non-residential social care services should be available free at the point of delivery to those who have been assessed by a relevant professional as requiring them (as is the case within health care)?

Yes

Please explain your answer

because its is not fair that this government is not handling free care to the most ill treated person that cant clean work and cant do things arounf the house becouse they are suffering real illness such has for me is nerve damage and a few anther pains thats the anther people who are suffering strokes heart attacks or any anther type of illness that care should be put in place to healp the non helpness into our society and that leaving people out is not the way foward if we ever going to help these people to move foward in live and to feel better within our selfs right now i feel helpness and cant find a way out of this pain i am suffering by help people like me and anthers out there then the most people who are needing it by 2025 will be ten times more worse unless we set a care plan system and if we do keep one in ten times will not be ten times worse so we must move foward and set this out sooner than later so that people like me will not feel hopeless and feeling deprest that there is not hope thats all we want is help to accive a goal in our live not just sitting around the house in pain and not having that suport and front line fife needs to shape up there slipping down hill

Q2. Do you agree that legislation is a necessary and appropriate means of addressing the issues identified?

Yes

Q2. Do you agree that legislation is a necessary and appropriate means of addressing the issues identified?

Please explain the reasons for your response

wee all must chip in and do our part free of charge money is nothing compared to live you cant buy a live if that live has died because you has the councilor our government organisation did not played your part into charging for health care and nhs scotland should abolish the charge and make it free for all who really needs the suport out thier familys are struggling right now under david cameron's leader ship and all he wants to do to cut back on evrey thing well this is not the awsner we all should do what gods way to give if you have a spare one and that live is not for sale or its not a second chance to live its only one live so we all should be helping to stamp out illness all over the world and to help to make people to feel good within thier self and stop being self selfish goverments david cameron and start to help all who is really needs the help

Q3. The current system has resulted in varying charges in different areas for the same level and quality of service. Do you agree that there should be consistency across Scotland?

Yes

What do you think the advantages and disadvantages would be?

just a small word it all should be free of charge money cant buy your loved ones back so make the most out of what we have in live and to help anthers who are in need of our suport

Q4. Should all social care related services be free at the point of delivery?

Yes

If you answered Yes, please explain your reasons. If you answered No, please explain which services should be excluded, and why. (Please refer to the services set out on page 7 of the consultation document).

all should be free i condem money evreywhere and i think by having money to having greed in politics and if you have tones then this is where david cameron's is going he is the partie for himself a shellfish partie that he hasent done any thing for brittish people we are all suffering and that money cant buy lives or your loved ones back thats why evrey nhs and free care and prescription should be free of charge i am anoyed that david cammeron has not done any thing for scotland and lied to break up scotland now that why we all should split up and go our way and do a better jop more than westminister to do what is right

Q5. What are the likely financial implications (if any) of the proposed Bill to you or your organisation? What (if any) other significant financial implications are likely to arise?

free pricipstions and free school meals and free bus passes for young scots who are on low benifits and that people who are on higher and middle rate should get theres taking of of them then that would be a fair policy

Q6. What do you think the implications of the proposed Bill are for equality? If it is likely to have a substantial negative implication, how might this be minimised or avoided?

Positive

Please explain your answer. If you answered Negative, please suggest any ways this impact could be minimised or avoided.

scrap all young scots buss passes and give low paid benifits people theres that would ballance the books

Q7. Are there any other comments you would wish to make that are relevant to this proposal?

we all need better housing care and housing and for me being on lowed paid beinfits i cant get out to get a buss thats because i just got enough to get bills paid and food on the tables and i know tons of people who are on acholic and drugs gets there higher benifits and gets there bus passes thats should be scraped and people who are on lowed paid benifits thats paying there ways into this society should get theres thats what i dont think its fair or its not right its far from ok to see this and it deeply makes me feel angry that this is happeing that 11 years ago i got my bus pass taking away from me simply becouse i was on low paid benifits and threats i got when it cvame to the atos simply is not right and all disabled people should get there benifits back and an apoligy too
